Collage Quilt

In Sally's words.....

"I would say that in regards to the fabric any kind will do but it is recommended that you have light, medium and dark colours. Also steam a seam or steam a seam lite and an iron would be the required tools. As for the picture I'm still deciding what my next project will be. I usually draw my picture onto tracing paper or oven paper works too and tape it to a board. So any picture will do. Sometimes colouring books are good at providing an outline."
